i Bose® L1® systems

Portable. Flexible. Easy to set up.

These systems combine highly portable PA and monitor so you can hear exactly what your audience hears.

The unique vertical design projects sound waves forward and to the sides for 180-degree coverage with reduced reverberation.

i Bose® F1 Flexible Array Loudspeaker system

Loudspeaker system

The Bose® F1 Model 812 Flexible Array loudspeaker is the first portable loudspeaker that let's you control its vertical coverage pattern. Simply push or pull the array into position to create "Straight," "C," "J" or "Reverse J" coverage patterns. And once set, the system automatically changes the EQ to maintain optimum tonal balance for each coverage pattern. So, wherever you're playing, you can have the right coverage for the right room.
